Company Profile

Todenko Group (China) has over 30 years of experience in wire harness supply in China, and its corporate customers are located worldwide.

01

Todenko's Strength

Excellent quality control and technical development capabilities. Deep customer recognition.

02

Harness Solution

Livelihood, industry, and automobiles. Dongdian deeply participates in the entire industry.

03

During Production

The wiring harness industry thoroughly implements quality as the criterion.

04

Todenko Group (China)

The Group focuses on: high demand,
high process wire harness products

- Todenko China has two production bases
Todenko (DongGuan) 【TDZ】
DongTai Todenko 【TDD】
- mainly produce comprehensive OA products and other internal and external connecting wires, and other products.
- mainly supplied to internationally renowned brand enterprises such as Autoliv, Fuji Xerox, Toshiba, PANASONIC, Panasonic, Fujifilm, and Zhipu.`

Honored

- In the field of passive safety systems for automobiles, during the cooperation period, customer evaluations were above 95 points throughout the year!
- Todenko have been deeply involved in wiring harness for decades in world-renowned international brands and the automotive derivative industry.

Certification

01

Harness Production
Wire harness production

02

ODM Service

produce harness types that customers expect based on the wire harness drawings.

03

Materials Sales

04

Customized Harness Development

Having an experienced project team. design and develop wiring harness functions according to customer expectations.

Business Scope

Change – 改革

: Prohibition of useless Product waste

Challenge – 挑戰

: Striving towards high goals without giving up. To the best of one's ability

Create – 創造

: Create a reassuring and work oriented atmosphere for customers.
We strictly adhere to CRS standards.

Company Policy

Introduction

Harness Solution

Production

Drive production innovation activities and exceed customer expectations!

Realize comprehensive correspondence between quality, delivery time, and cost!

Achieve quality beyond customer expectations with excellent products!

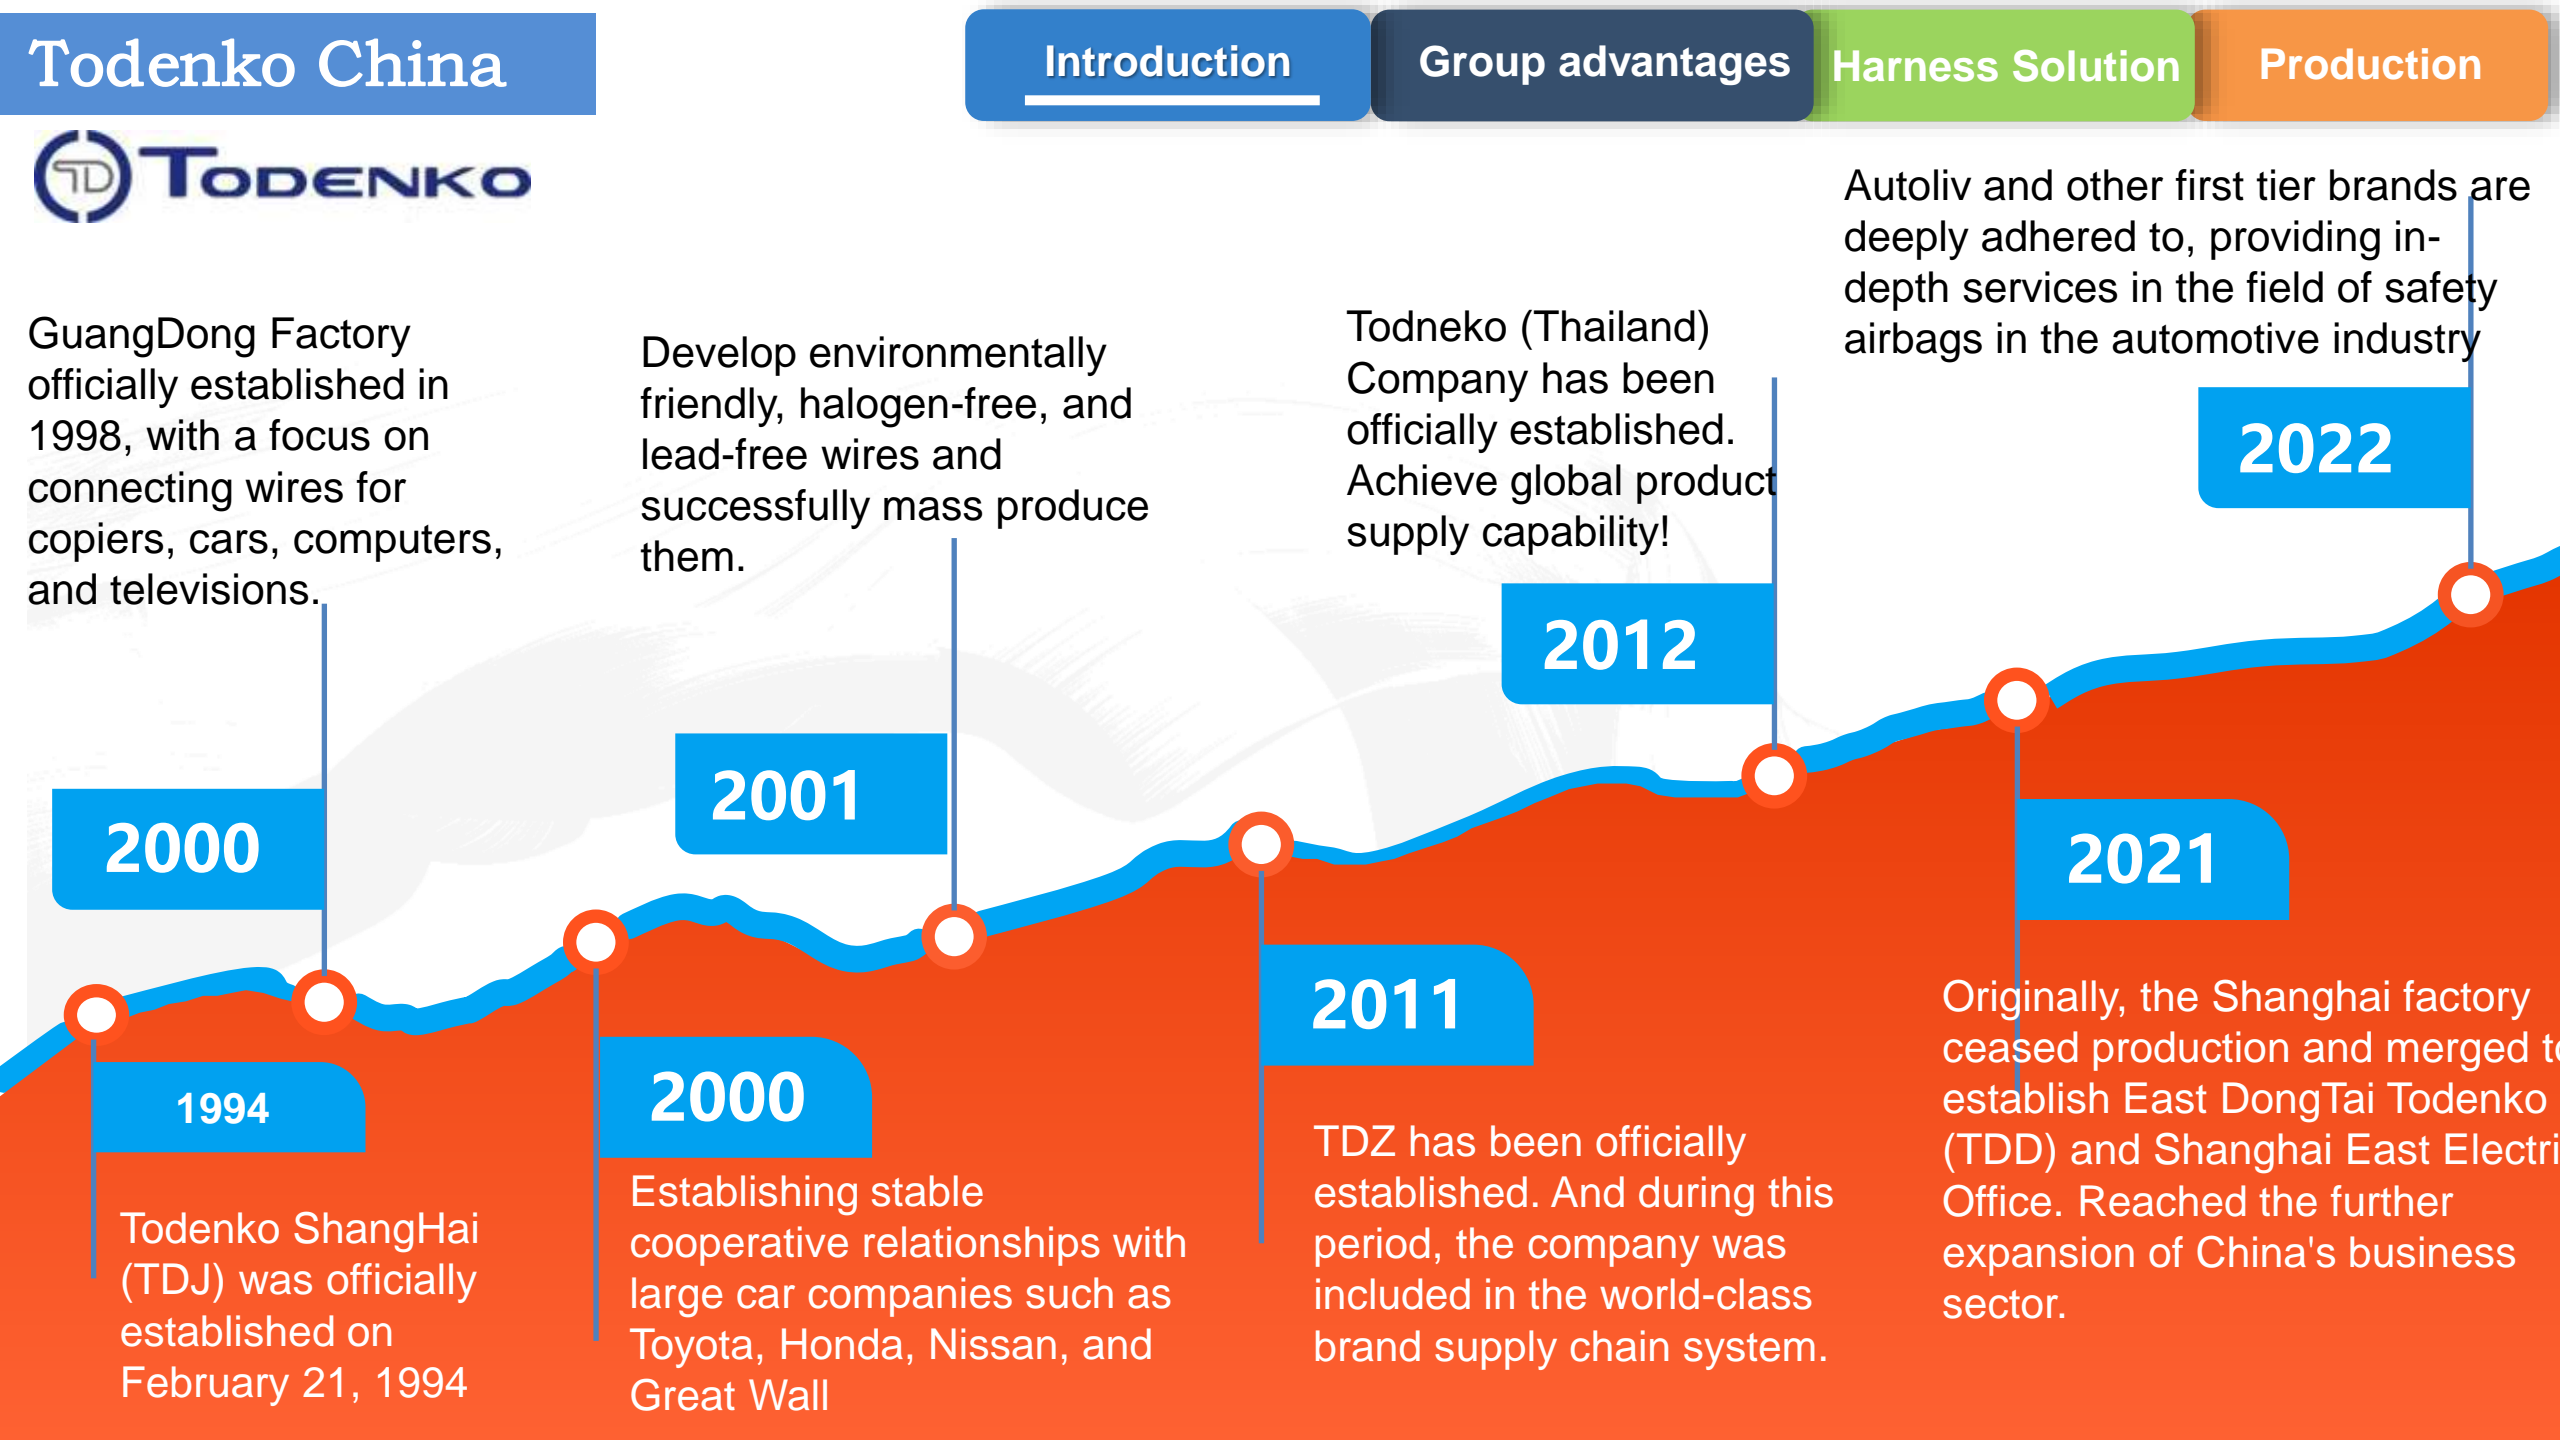

GuangDong Factory officially established in 1998, with a focus on connecting wires for copiers, cars, computers, and televisions.

Develop environmentally friendly, halogen-free, and lead-free wires and successfully mass produce them.

Todneko (Thailand) Company has been officially established. Achieve global product supply capability!

Autoliv and other first tier brands are deeply adhered to, providing in-depth services in the field of safety airbags in the automotive industry

Todenko ShangHai (TDJ) was officially established on February 21, 1994

Establishing stable cooperative relationships with large car companies such as Toyota, Honda, Nissan, and Great Wall

TDZ has been officially established. And during this period, the company was included in the world-class brand supply chain system.

Originally, the Shanghai factory ceased production and merged to establish East DongTai Todenko (TDD) and Shanghai East Electric Office. Reached the further expansion of China's business sector.

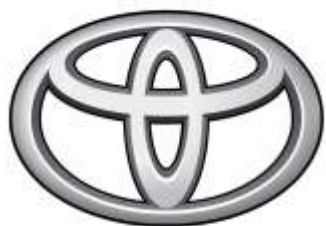

High quality management system integrating
【technology & management】

- ① Deliver reassuring and safe products to all customers
- ② Customer satisfaction is our pride.
- ③ Committed to the effective operation of the quality system and strictly implementing quality control standards.

Todenko (China) Customer (Part)

The Autoliv logo features the word "Autoliv" in a bold, blue, sans-serif font. A thick blue horizontal bar is positioned below the letters "li" and "v".The FUJIFILM logo consists of the word "FUJIFILM" in a bold, black, sans-serif font. A small red vertical bar is placed between the "i" and "f" in "FILM".The MERIT logo features the word "MERIT" in a bold, blue, sans-serif font. Below it, in a smaller font, is the text "Merit Automotive Electronics Systems".

Group Business- Industry

Group Business - Area

Deeply cultivating the automotive wiring harness industry, our products have gained user recognition and trust.

Group Industry Category Amount Statistics

In the future, Todenko (China) will further devote itself to the supply of automotive wiring harnesses and more refined and demanding wiring harness products.

Wire harness products are classified as follows

- ① Civil wiring harness
- ② Automotive wiring harness
- ③ Passive safety field wiring harness
- ⑤ Switch · Harness Components

**components in the field of
passive automotive safety**

Todenko Group' s Wiring Harness

- Fully control the manufacturing process of electronic wiring harnesses. What customers need, what we do.
- Not just electronic wiring harnesses. In fields such as FAKRA. Assist in the development of advanced front-end application industries.
- With global component procurement capabilities, we aim to achieve diversified wiring harnesses for our customers and exceed their expectations in quality!

Fakra harness series

With the continuous development of automotive intelligent architecture, the demand for diverse sensors and Fakra wiring harnesses is also increasing.

Dedicated to providing support for the new generation of in vehicle intelligent systems and advanced intelligent interaction.

Introduction

Group advantages

Harness Solution

Production

面向汽车行业解决方案 Automotive industry solutions

**Todenko is a manufacturer of
automotive safety systems**

We have been providing wire harness products for 20 years, mainly including seat belts, airbags, cameras, seats, ETC, and steering wheel wire harnesses.

Airbag Harness

Passive safety field

The main function of the Connector harness is to sense the impact signal of the vehicle during a car accident.

According to the customer's drawing requirements or technical requirements

Seatbelts Harness

Passive safety field

The invention of two-point to three-point seat belts. Volvo engineers say that three-point seat belts can reduce accidents in Shanghai by 50% -60%.

As a first tier supplier of World-Class Brand, Todenko has perfectly solved and controlled technical problems in wiring harness assembly

SeatBelts Harness

Passive Safety Field

Fully automatic welding process. Precision and sturdy welding inspection.

Every seat belt harness undergoes four steps at the factory: machine inspection, manual inspection, manual re inspection, and shipment inspection.

通用电子行业线束解决方案

OA & Consumer Electronics solutions

Since its establishment, Todenko has become one of the excellent suppliers of Fujifilm procurement consulting.

We mainly undertake the connection wiring harness of printer/copier equipment and fine customized wiring harness business.

Office Automotive

Printer - Civil Electronic Harness

assemble the wiring harness:
Terminal head processing steps,
assembly of terminals and wiring
harness components.

Each wire harness has a
separate SOP production
process book.

Office Automative

FUJIFILM, as the world's largest comprehensive manufacturing brand of office processing products and services.

As shown in the figure, there are **specific requirements for the wire material, wire head weaving process, and cable interface.**

Civil Electronic Harness

Applicable wiring harnesses for OA devices

Internally connected as a fine and complex component. There are various requirements for wiring harnesses.

As shown in the figure, there are **specific requirements for the wire material, wire head weaving process, and cable interface.**

面向工业、机械方面的解决方案

Harness for the Machinery Industry

Todenko wire harness is widely used in various products. Including electric vehicles, machinery, power supply devices, BMS boards, etc.

Special mechanical wiring harness

According to the detailed instructions on the customer's drawings, produce products that comply with current and voltage regulations as required.

Category of connectors.
Todenko can **propose new replacements according to customer expectations and requirements to achieve the best results!!**

Civil wiring harness

Didi Group

According to the process requirements of the parts, various specific wire harnesses can be created.

We can meet all the technical requirements, including the material selection of wires, the color of wires, and the tail number of connectors.

Quality Control

Todenko's strict production process.

Scientific production guidance and strict quality management.

① Incoming material storage inspection and product inspection

② During production and development.
Dongdian's production process design has been re developed.

③ Investigate and resolve the causes of defective or defective products.

④ Daily quality inspection activities. FEMA resolutely executes.
